

Rose Order 2011-2012

Scenic Nursery has specialized in roses since 1949. We select the very best for our area. We look for good repeat bloom, disease resistance, vigor, fragrance when possible and obviously attractive blooms that our customers want to buy!

There are a couple of new varieties this year to bring to your attention. A new species rose called Hulthemias have a dramatic red blotch in the center. This is unique and breeders have been trying to introduce it into a compact everblooming rose for about 100 years. The new Eyeconic series from Star Roses, Lemonade and Pink Lemonade, are the culmination of this effort.

In addition, the sole AARS winner is Sunshine Daydream - a yellow grandiflora that won under "NO SPRAY" conditions. Check out our other new introductions: Ketchup & Mustard, Koko Loko, Sugar Moon, Ittie Bittie Pink, and Thrive.

We still offer a 10% discount on all prepaid orders placed by November 30, 2011. Orders are filled according to date processed so order early as some are in limited supply! Roses will be available to be picked up the first week of January, depending on the weather. Orders not picked up by February 1st will be potted and returned to stock.
